### Why do I need a permit?

Obtaining permits allows legal permission to start construction and allows for the enforcement of codes which have been adopted as laws by the city. No matter what the specific job may be, the enforcement of our codes is carried out to protect the public health, safety, and welfare of the citizens of La Grange. In addition, obtaining permits ensures oversight and protects the investment you have in your home or business.

An application should be made and a permit obtained prior to the start of any construction. Although this list is as comprehensive as possible, it is not intended, and should not be considered, to be all inclusive. If you have a question as to whether or not a permit is required, please call the City of La Grange at 979-968-5805.
